What's New at Hunter Mountain

The Hunter North expansion project has become the largest development of any northeast ski resort in over 15 years, adding 80 new skiable acres to Hunter Mountain and increasing available terrain by one third. 5 new trails, which are mainly intermediate terrain, and 4 new glades which are expert level terrain, greatly expand the variety of terrain Hunter has to offer. Four intermediate blue squares, offer long sweeping runs for an exciting ride back to Hunter North's new base area. Rusk Road, Hunter North's only green circle trail, is located at the bottom of Hunter West and provides a leisurely connector trail with access to the new terrain.

In keeping with Hunter Mountain's renowned snowmaking capabilities, Hunter North features 100% snowmaking coverage across all its new terrain. Hunter North's terrain will be serviced by a new high speed 6-passenger detachable chairlift, appropriately named "The Northern Express". With the addition of this new 6-passenger chairlift, Hunter will be the first ski resort in New York State to feature two high speed 6-passenger chairlifts.

Beginners

Hunter One boasts green and blue trails for beginner to intermediate skiers.

Intermediates

Hunter Mountain offers a variety of terrain, from easy green to double black diamond.

Advanced

Hunter West rounds out the resort's terrain with expert-only black and double black diamond trails.
